

Uncommon Wisdom
Common Sense®

Leonard, Street and Deinard's energy attorneys counsel transmission owners and transmission customers on a wide range of matters related to transmission tariff implementation and rates for transmission services. Using a team approach to developing and implementing innovative and cost-effective solutions to our clients' business needs, our energy attorneys have actively participated in the proceedings of every major Regional Transmission Organization and Independent System Operator in operation today. Specifically, Leonard, Street and Deinard energy attorneys provide our electric clients the following services:

MERGER OR ASSET DISPOSITION APPLICATIONS

Our attorneys have prepared and prosecuted before the FERC dozens of applications for authority to sell, merge with or acquire facilities from public utilities.

RTO AND ISO PROCEEDINGS

We participate in the structuring, formation, governance, and operation of RTOs and ISOs including issues related to post-Day 1 and Day 2 RTO operations.

TARIFF AND OPERATOR RULE PROCEEDINGS

We draft pleadings and participate in proceedings to establish or modify tariffs and operational rules of public utilities, RTOs and ISOs.

RATE CASES AND COMPLEX REGULATORY LITIGATION

We prepare and prosecute state and federal tariff filings, ranging from traditional rate cases to performance-based rate making to unbundling and retail access.
